

Dart Knight Team Progress Report – Week 1

Accomplishments

- Team rules created and agreed upon
- Repo set up with starting Netflix code
- Documentation folder created for user manual, design doc, and reports
- Initial draft of features and requirements collected
- Team meeting scheduled for Mondays at 3:50

Next Steps

- Collect all members' features and requirements
- Collect members' schedules and combine into team milestone plan
- Begin preparing architecture/design documentation

Issues/Concerns

- No major issues yet – waiting on members to submit their requirements
